We will be pleased to come to you

The League runs a representative side in the National League System Cup, a competition which leads to European competition.

The side also represents the League in our high profile campaign against Racism in Football and competes each year during the National Week of Action against racism, last year with a charity game against the Bangladeshi League and this year against the Black Police Association.

Bringing football to Northamptonshire and beyond

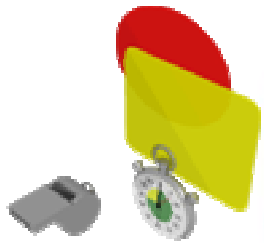

Website: www.northantscombination.co.uk

The Northamptonshire Combination League was founded in 1953 to grow to its current status as the largest League providing Saturday football for men in the County.

69 clubs and 111 teams compete in 8 divisions with over 3000 players enjoying League, Cup and Northants Football Association competition, some 2000 plus fixtures per annum.

Every week the League receives full match coverage in the Evening Telegraph and the Chronicle and Echo newspapers together with fixtures in different features on Fridays and results on Mondays. Coverage is also provided on local Radio Northampton and Ceefax.

To do all this the League needs to sustain the running costs of this not for profit organisation. The opportunities to ally your organisation with the League cover the title sponsorship of the League, the first team and reserve team divisions, the individual divisions, the 8 Cup competitions and the League representative side with your name always mentioned in all exposure.

Nationally the League enjoys coverage in the Non League Paper on Sunday and also in Rugby and Leicester newspapers.

The League promotes Cup finals each year with venues that have recently included Sixfields Stadium and Rushden and Diamonds. For Cup finals the emphasis is on staging the finals under lights in the best facilities available.

Affiliated to the
Northamptonshire
Football Association

Football is the national game – the Northants Combination League is Saturday football in the County – let's see how we could do better together.
